

EASYCOUNT

Automatic counterfeit note and coin counting and checking system with three detectors

Manufactured for Mediatek Trading Europe S.r.l. Made in China

EASYCOUNT is a highly accurate note counter and counterfeit checking system.

It integrates a very complex fuzzy logic algorithm for higher accuracy and reliability.

It recognises counterfeit notes through three types of check: infrared, magnetic, UV.

It is very compact, thanks to a modern and ergonomic design.

EASYCOUNT is fitted with an external device that checks the authenticity of 1 and 2 Euro coins.

EASYCOUNT also checks other currencies, thanks to a simple selection on the device menu.

Variable batch selection (1 to 999 notes) with automatic stop when the preset count is reached.

SPECIFICATIONS

COLOUR	White
SIZE	33 X 26,5 X 22 cm
COUNTING SPEED	More than 1000 banknotes per minute
LOAD CAPACITY	200 notes
NET WEIGHT	7,3 Kg.
