

# EURTester

Manual counterfeit note detector (infrared-sensitive ink reading)

Made in Italy 

**EUROTESTER** is an international banknote tester; it detects effortlessly and immediately the areas treated with special inks, sensitive to infrared rays, and thus detecting the special printing processes used by the major state mints.

**EUROTESTER** is designed to check the following currencies:

**Euro**

**GB Pound**

**Japanese Yen**

**Swiss Franc**

**Canadian Dollar**

**Australian Dollar**

And all the other currencies treated with infrared-sensitive inks.
