

**MONEY FLASH** is a very small note detector which is very easy and practical to use.

The device efficacy is guaranteed by two types of checks:

Magnetic sensor that detects the code into the safety thread of Euro notes

**UV sensor** that checks the note authenticity checking their watermark.

**MONEY FLASH** comes with a leather case (made in Italy) that can contain the device as well as your notes and coins.

**Available as a single piece package or as a 10 pcs. display.**
