**The right count
at the right cost!**

Thecointainer.com

Travelling, light and safe!

Inexpensive: low cost, save time and space

Saving handling times.

Clear identification and safe counting: thecointainer is a convenience device. You can save on coin packaging and transport cost.

Quick check.

With thecointainer you can instantly check when the container is full. This accurate count makes automatic counting and/or weighing unnecessary.

The priority: a safe count

Reliable counting.

Thanks to its 5 coin compartments, counting mistakes are impossible. Each package can seat the fixed number of coins only.

Instant recognition.

The longitudinal marking complies with the European colouring code for money packaging. It shows the unit face value, the number of coins and the total package value.

Save counting and handling time
